## C. P. S. AND ST. MARTINS PLAY SCORELESS GAME ON LOCAL GRID

Last Football Game in Tacoma For 1922 Season Results in 0-0 Score. St. Martin's Near Goal Three Times.

In the closing game of the Puget Sound home season, the St. Martins gridders held C. P. S. to a scoreless tie. The game had many thrills as a result of fumbles at critical times.

St. Martin's nearly scored three times. Once when Daniels fumbled a punt on C. P. S. five yard line, also when Earls attempted a drop-kick and when Toner attempted a place kick.

C. P. S. had the ball the best part of the game having made 12 first downs to St. Martin's 2. Puget Sound attempted several forward passes but failed to complete them.

Brooks easily outpunted Sullivan of St. Martin's. Revelle, Stone and Blevens and Schwarz played a stellar game for the locals, while Enright, Gribbin and Sullivan starred for St. Martin's.

## Track Meet Is A Huge Success

Seniors Entertain Juniors and Faculty Saturday.

An all-American Track Meet was held in the gym Saturday night, involving athletics of Princeton, Cornell, Yale and Harvard.

These colleges were represented in each event by some member of the Junior or Senior classes or by some member of the faculty.

Immediately after the fat ladies' race, an impromptu football scrimmage was enacted free of charge when one of the daring Harvard "Flea Hounds" ran 20 yards for a touchdown and captured a pennant from the Princeton "Yellow-Jackets." Was Doc Harvey there? He was the whole back field. When Prof. Schillp was carried off on a shutter, Dr. Weir was sent in to fill his place and after three spectacular tackles and a perfected forward pass he drew off his overcoat. The crowd went wild during which time the referee succumbed to a nervous breakdown.

In the pole vault (which was a race in hanging clothes on a clothesline) it was agreed by all present that Coach McNeal did not do himself full justice, due perhaps to the fact that his wife was one of the judges and he did not care to work himself into a permanent job.

The 100 yard dash, which was the last event of the meet, was won by Roy Norris, a Cornell "Lizzard" in 0 flat. This raised the score of his team 75 points, bringing victory to the Blue and Gold. The hand embroidered loving cup was then presented to Coach Williams of that team, after which hot dog sandwiches, doughnuts and coffee were enjoyed by those who were still able to sit up and take nourishment.

## CHAPEL CHIMES

(By the Bell Rope.)

"Many say the war didn't stop soon enough," said Hon. Swayzie, in his talk at the C. P. S. Chapel commemorating Armistice Day.

"At the time of November eleventh we were planning to go into another great offensive, November eighteenth. The objective was Metz, a city fortified for from twenty to fifty miles out into the surrounding territory.

Mr. Swayzie said they were glad not to have to go on because many of their regiment had been killed and those who remained were sick and unfit for fighting, except for the new men who had been brought in to fill the ranks. When the news came that the Armistice had been signed, Mr. Swayzie says he was up in a barn lying on some hay. His regiment dragged out some drums and other instruments of noise but he stayed up on the good old milk cow's hay and rested.

Unlike Mr. Swayzie, Mr. Stone was in the replacement troops so he wanted to go on and see some active fighting. His regiment was glad the war was over but thought it wasn't finished. They were at a rest camp when they heard of the Armistice being signed and they made lots of noise. A convoy of ships came in from the U. S. and were very disappointed that they couldn't go on.

Earl Poe said he was recuperating in a base hospital from being too slow to get into a shell hole. When they heard that the Armistice was signed they didn't believe it. Soon, however, they heard the shouts of "Fini la guerre" so they dodged the M. P.s and got out where the noise was.

Professor Kelly was resting in a hospital at Brest when the news of the signing of the Armistice reached them. There were a hundred and twenty men in a ward which was about the temperature of the chapel. They were not having very much to eat because the best of the rations were sent up front.

The afternoon of the eleventh Continued to page 2

## PREPARING FOR LAST GAME OF 1922 SEASON

Coach McNeal is putting his men through the last week of practice for the season in preparation for the Willamette game on Thanksgiving day at Salem. This is the real game of the year. For years there has existed a keen yet friendly rivalry between the two Colleges. Last year C. P. S. won from Willamette. As a result Willamette is out for revenge this year.

If comparative scores tell a story the fight is going to be a close one. Pacific U. beat C. P. S. by a score of 27 to 0, and they beat Willamette a week later by a 26 to 7 score.

The team is working with the determination to "Bring Home the Bacon."

The Athletic management announces that special rates have been obtained for the Willamette trip. A large number of students are planning to see the game.

## Y. W. Initiation Ceremony Impressive

The Y. W. Initiation was held at the Girls' Dormitory Sunday, Nov. 19th at four o'clock. The president, Evelyn Ahnquist, presided, assisted by other cabinet members. The very beautiful and impressive ceremony consisted of the Candle Service, with the Candles of Truth, Life, Joy and Love. The new members dipped their candles in these symbolic flames, thus signifying their desire to become a part of Y. W.

The girls are urged to remember the tea given at the home of Mrs. Garvin at 624 No. 1 on Thursday afternoon from three to five o'clock.

## "LEST WE FORGET"

In his baccalaureate address to the graduating class of Princeton last June, Dr. John Grier Hilben said this little thing: "There is a universal cry about us, wrung from anxious hearts, 'When will the new day of better things come to earth?' That question your generation must answer."

The American Committee for Relief for Russian children says that to do this our generation must be fit to carry out the job, physically, mentally, morally fit. We, for the most part are fit enough, but there is one place where our generation is in dire need.

America has done much already. 27,708 children have been fed entirely by food sent from America by the American Committee, 80,000 children have been given supplementary feeding and 54,962 persons have

been given medical treatment.

But the fight is by no means won. Reverend George Stewart, Jr. of the Madison Avenue Presbyterian church of New York says:

"Let me urge upon you the need to keep up your efforts during the winter and the year of 1923. One cannot forget the scenes of desperation and misery among the people. The refugee trains—long lines of cars aquiver with pain. People in rags beyond description. Children with death heads, crying for bread. Dying mothers with children tugging at their dry breasts. The Four Horsemen are walking the length and breadth of Russia right now."

What are we going to do about it?

## CHAPEL CHIMES

(Continued from page 1)

He and his companions were taken where they were allowed to lie in the sun on their stretchers. The French were crazed with relief and as the soldiers were being taken back they tossed all kinds of presents on their stretchers.

Most of the young men were high school graduates who considered war and army life "as a matter of having a good time", said Lewis Cruver, a representative of the S. A. T. C. Some of them were of a different opinion when thirty-three men were in the infirmary with the "Flu" and the rest lived on potatoes and water. As a whole, however, the S. A. T. C. was a rousing success. They learned some things and forgot some things and had a good time.

According to Professor Kelly, who spoke in the C. P. S. chapel Wednesday, you can do anything you want if you pay the price.

He says the trouble with the American student is that he moves with the tide. He is satisfied if he keeps up with the general run. He ought to check up on himself, taking care, however, that his self-criticism is constructive and not destructive.

Some people emphasize individuality to the loss of loyalty. They tell the world how good they are instead of working in cooperation. It is always, "I did this" and "I did that". They are not loyal to the group.

There is a lack of honesty. When a lesson is assigned, they forget about it. They do whatever is most convenient and dodge responsibility.

Still others lack faith. Faith in themselves and in those around them. Some business men say you cannot be honest and succeed in business.

What we all need is to choose a goal and advance toward it no matter how hard it may be. The way to grow is to do the thing which is not always easiest to do.

According to Professor Slater life is a triangle. Heredity forms the base of the triangle, an environment, or what we have, and response or what we do form the sides. We are the center of the triangle.

There are several theories which attempt to explain our personality and conduct. According to noliotionists we do what we will to do. We are what people will us to be. These people think that will accounts for everything.

According to the mechanical idea everything has its cause and effect. All human nature is determined by cause and effect. We cannot change any natures because they are determined in the germ cell. The only hope then is eugenics.

There is just as much determination in environment as there is in heredity. It is only potentialities that are inherited. We never reach the highest or fullest development unless we have the best environment. Man has the greatest variety of environment and should therefore have the highest development.

## A KINGDOM OF LOVE

A sermonette from the Oxford club:

"And the Spirit and the bride say come and let him that heareth say, come, and let him that is athirst come. And whosoever will, let him take the water of life freely."—Rev. 22:17.

Since the beginning of time man has worshipped—worshipped something in some manner or form. It may have been a golden image, it may have been a wooden god, it may have been the sun, the moon, the elements.

The old Testament prophets sought to direct this inborn element of worship to the one living God. This was not infrequently done by prophesying destruction as the only alternative.

The life of Jesus was a practical demonstration of God's kingdom of love. Many people had previously taken the law as their religion, obeying the statute that they might escape eternal damnation. For those who accepted the Christ, His life was a revelation. Living simply, thinking always of others, doing good whenever the opportunity presented itself, and constantly telling of the love of the Father, Jesus' message was "God is love," a simple statement concerning God, combined with a simple promise, "Ask and it shall be given you; seek and ye shall find; knock and it shall be opened unto you."

And in the present day we need more of Christ's simplicity, more love and less fear. First, we must earnestly seek for ourselves, and then, having found peace and strength in our own experience, we should let our lives be a demonstration of Christianity. Jesus said that his words were not of man's wisdom, but a "demonstration" of the spirit and of power. Our words and deeds will likewise radiate the Spirit if we accept the challenge: "Let him that heareth say Come." We will then perpetuate the brotherhood of man which Jesus revealed—The Kingdom of Love—the universal promise of "whosoever will."

### LAMBDA SIGMA CHI

We had a "rarebit" of a meeting last Wednesday. After making bandages to send to the missionary field, the hostesses, Tusk Anderson and Edith Turley, served welsh rarebit and olives. Just when we were beginning to enjoy the lunch they announced that we would have an impromptu program. The first number was "Rarebits of Nothing" on the piano, by Beula Riese. Following was a clever act by Esther Graham, called "Rarebits of Humor." Then Ellena Hart gave one of her own compositions when called upon to play a "Rarebit of Music". The last number was a stunt given by Nip Parkin, Eleanor Kenrick, Ruth Bitney and Elsie Clevenger, called, "Rarebit of a Skit."

Today we are going to Evelyn Longstreth's home for an old fashioned sewing bee. You didn't forget your thimbles, did you girls? Meet here at 4:00 p. m. prompt.

### PHILO NOTES

The title and arrangement of the Philo program of Nov. 13 was very appropriate for an anniversary of Armistice Day. Tragedy, humor and reality mingled to make past experiences vivid "Lest we Forget" the dark days of 1914-1918.

Prelude—Miss Miller.  
Reading, "In Flanders Fields"—Miss F. Davis.

German Secret Service—Mr. McWilliams.  
Nov. 4th, 11 o'clock—Miss Osborne.

Duet, "The Marseillaise"—Misses Brix and Anderson.

Battle Fronts:  
Eastern Front—Miss Warren.  
Near Eastern Front—Mr. Wight.  
Austrian Front—Miss Clinton.  
Reading, "O, East Is East"—Mr. Notter.

Farce, "Memories"—Mr. Stone and Mr. Bowman.

### AMPHICTYON

Boarding the good ship "Amphictyon" the Amphics took a pleasant trip to the ocean last Monday night.

As we put out to sea we were greeted by "Ocean Breezes" in the form of a piano solo by Margaret Parkin.

Gathered together in the cabin, we talked about the wonderful ocean surrounding us. Julia Landis told us about the "Ocean in Literature". Harold Wade spoke about "Sports and Games on a Liner". Harold Fretz gave a talk on his favorite subject "Snubbing Puget Sound." Ruth Bitney delighted us with sea songs. "Hints for Ocean Travel" were given by Eldan Chinnard. We are going to remember them for our next voyage.

The sea, heretofore so calm, suddenly became billowy. Our good ship was violently shaken and tossed about by the extempo "Ocean Currents". We were seized with fear until Merrill Ginn was called to brave the storm and guide us safely through the troubled waters.

On the return trip "Deep Sea Mysteries" were indulged in. Mme. Sneezyredoff answered our perplexing questions and put us in communication with the spirit world. The departed spirit of Ellena Hart was heard in the distance playing upon her golden harp. The tiny shoes of George Hoyer were seen walking across the deck showing us our friend must have not rest but continually roam this vale of sorrow.

Mme. Sneezyredoff, whom we found out later to be Thelma Bestler, was assisted throughout the performance by Florence Taylor, Dillard Howell and Paul Rule.

### DELTA KAPPA PHI

The usual Tuesday luncheon of the fraternity has been changed to Thursday, in order that those of this fraternity, might attend Glee Club.

The luncheon last week was the usual good quality, as is always served at the mansion. The fraternity rooms were inviting with their new decorations of purple and white. The effect was so impressive that two or three of the members had occasion to use them Tuesday night.

A party Monday night was given at the frat house and those that attended had many frills.

### KAPPA SIGMA THETA

Well! We are prouder than ever of our new girls now. Their program certainly was interesting. If there is anything about yourself that you don't know and want to know, just ask one of the girls that was in the stunt. I am sure any one of them will be able to tell you.

Our program for this week is "Negro Talent," Charles Wendell Chestnutt by Juliette Palmer, Wm. Stanley Braithwaite, Nan Tuell, Booker T. Washington, Evelyn Ahnquist, solo by Florence Todd, Henry O. Tanner by Margaret Lemmon, W. E. Burghardt Du Bois by Anita Greenlaw.

### BACHELOR T CLUB

One of the "peppy" clubs recently organized at the C. P. S. is the Bachelor T. This club is composed of nine girls of the Freshman class. The charter members are: Sue Mitchell, Evelyn Carr, Hilda Rasmussen, Faye Rasmussen, Caroline Wallman, Mildred Harper, Doris Leiss, Helen Sadoris and Alice Olsen.

The first social affair of the club was given in the form of a theater party on Nov. 15th. Miss Budd, of the English Department, chaperoned the girls. The next event of importance on the club program is a party to be held at an early date.

That Harold Fretz has the beginnings of a fiery evangelist in him—but alas! Only the beginning!

That a collection is being made to buy Chad Christine a pair of pajamas.

That Horse Blevins told Frank Brooks that he might grow up!

That Ralph Brown is an authority on Vancouver Prunes.

That John Kelly intends to rival Rudolph Valentino. He's collecting towels to make his head gear.

## "WORD MONGERS" and "CHATTERING BARBERS"

"Word mongers" and "chattering barbers," Gilbert called those of his predecessors who asserted that a wound made by a magnetized needle was painless, that a magnet will attract silver, that the diamond will draw iron, that the magnet thirsts and dies in the absence of iron, that a magnet, pulverized and taken with sweetened water, will cure headaches and prevent fat.

Before Gilbert died in 1603, he had done much to explain magnetism and electricity through experiment. He found that by hammering iron held in a magnetic meridian it can be magnetized. He discovered that the compass needle is controlled by the earth's magnetism and that one magnet can remagnetize another that has lost its power. He noted the common electrical attraction of rubbed bodies, among them diamonds, as well as glass, crystals, and stones, and was the first to study electricity as a distinct force.

"Not in books, but in things themselves, look for knowledge," he shouted. This man helped to revolutionize methods of thinking—helped to make electricity what it has become. His fellow men were little concerned with him and his experiments. "Will Queen Elizabeth marry—and whom?" they were asking.

Elizabeth's flirtations mean little to us. Gilbert's method means much. It is the method that has made modern electricity what it has become, the method which enabled the Research Laboratories of the General Electric Company to discover new electrical principles now applied in transmitting power for hundreds of miles, in lighting homes electrically, in aiding physicians with the X-rays, in freeing civilization from drudgery.

Girls! Beware of absentmindedness! You often say yes when you mean no. Prof. Schlipp says girls are in semi-unconscious state when they are getting a proposal and that he knows that they say yes when they meant no.  
C-P-S

Prof. Schlipp says he finds his inspiration outside and is thus continually looking out of the window. Inspiration means, "the spirit within," and why isn't it possible for him to find it within the class room? Continued next week.

A petition has been circulated among the boys to allow young gentlemen to stay after eleven when calling on a member of the fair sex upon certain conditions, which are as follows:

1. That he talks loud enough so that he can be heard all over the house.
2. That all lights are left on.
3. That he closes all the doors when he goes out.
4. That he will not take the milk or morning paper with him.

If you haven't signed your name to the petition, and so desire, please see Mr. William McKensie before the next school party.

**? Question Box ?**

Dear Miss Sedd,  
What would you do if your alarm clock failed to give the alarm, thus causing you to oversleep?  
Merrill Ginn.

Dear Ginn,  
I would be late to school.  
Nuff Sedd.

Dear Nuff:  
Should girls go home alone at night?  
D. J.

Dear D. J.  
Better go home alone than not at all.  
Nuff Sedd.

Dear Nuff:  
My ear is only partially concealed by my hair. Is this a criminal offense?  
Evelyn Ahnquist.

Dear Evelyn,  
It is not a criminal but a financial offense. No girl of today who is physically able to support a pair of puffs need display an ear.  
Nuff Sedd.

Dear Nuff:  
I cannot keep a hair net for more than a day at a time. Is there any method for their preservation?  
Agnes Hauge.

Dear Agnes,  
You can keep them indefinitely by not wearing them. Try wearing your hat on holidays.  
Nuff Sedd.

Dear Nuff:  
I am troubled by a terrible temper while teaching. Can you prescribe a remedy?  
Prof. Slater.

Dear Professor,  
If every morning you would either leave your temper at home, or tie it firmly under your desk, you would find instant relief for both yourself and pupils.  
Nuff Sedd.

Dear Nuff,  
I am continually annoyed by large holes in my cheeks. How can they be avoided?  
Tom Green.

Dear Tom,  
They can either be puttied up or you can cultivate a grouch.  
Nuff Sedd.

Dear Nuff,  
I have lately swallowed a dictionary and am much annoyed as a result. Is this malady curable?  
Harry Enochs.

Dear Harry,  
I have at hand a effective antidote. Chew well the first thirty-seven pages of Kidd's lessons for the mute.  
Nuff Sedd.
